It is recommended that you read this Rule Book carefully to assure your familiarity with the rules and regulations contained herein.

1. GENERAL

1.1. Governance

1.1.1. General

1.1.1.1. The Rules govern the NTT IndyCar Series and supersede all previous Rules, bulletins and supplementary Rules and regulations, unless otherwise indicated. Capitalized terms used in the Rules have the meanings set forth in Rule 19, Glossary.

1.1.1.2. If the Rules do not expressly permit a variation, then the Member shall presume that such variation is not permitted. If a Member is uncertain if an act and/or part violates a Rule, the burden is on the Member to receive pre-approval in writing from INDYCAR. For this purpose, e-mails are not written approval unless otherwise expressly permitted and specified by INDYCAR by bulletin. The Member assumes the risk of noncompliance. It is not necessary for a competitive advantage to be gained to constitute a violation of these Rules.

1.1.2. INDYCAR Authority

1.1.2.1. The Rules shall be applied, constructed, and interpreted by INDYCAR, and INDYCAR's application, construction, and interpretation shall be final and binding.

1.1.2.2. INDYCAR reserves the right to create and/or revise the Rules at any time, including, without limitation, prior to or during an Event. Notices, bulletins, supplementary Rules, regulations, and penalties are effective on the date and time issued, regardless of the date and time when a Member receives actual notice.

1.1.2.3. INDYCAR shall have the right to enforce the Rules, including the rights to impose and/or remove penalties for any violation of the Rules. INDYCAR may penalize any Member and/or exclude any Member or equipment from any Event if INDYCAR deems any act, any omission, any condition to be hazardous and/or not meeting the specifications, requirements, spirit, illustrations, and/or intent of, the Rules.

1.1.2.4. INDYCAR shall have the right to determine whether or not to make public a notice stating that INDYCAR has penalized any Member and/or rendered a judgment on a review and/or appeal. If published, the notice may include without limitation a description of the penalty or judgment and names of the affected Member(s).

1.1.2.5. INDYCAR shall also have the following rights: (i) to authorize and supervise Events of any kind; (ii) to render decisions concerning the Rules and Events; (iii) to grant, approve, refuse, enforce or withdraw Licenses, memberships, and sanctions; (iv) to assign and cancel dates for Events; (v) to appoint and rescind the appointment of Officials; (vi) to establish, interpret and enforce standards of eligibility for participation in Events; and (vii) to do any and all things which, in its judgment, are consistent with the enhancement, safety and/or integrity of the Events. INDYCAR also reserves the right to take whatever action and/or impose whatever penalty it deems necessary to maintain the integrity and safety of INDYCAR, the NTT IndyCar Series, and/or its Events.

1.1.3.2. INDYCAR may without limitation order the completion, postponement, or cancellation of any Event or any portion thereof for any reason. INDYCAR may terminate a Race before its scheduled number of laps or allotted time and in such case, determine the Race results and disposition of the awards and may terminate a Race after one or more Cars have finished. 7.1.7.5.1. Instant Messaging Protocol – Entrants may send relevant messages to INDYCAR. Use of the instant messaging system for any reason, including, without limitation, irrelevant, abusive, and/or unnecessarily repetitive messages, will result in monetary penalties. Requests for review of any on-track activity should include specific information (location, approximate time or lap number, car numbers, etc.). The penalized Car shall proceed to the Pit Lane as directed by INDYCAR and may return to competition only upon the declaration of INDYCAR. In the case of a Driver violating the Rules, no work may be performed on a Car during the execution of a black flag penalty. Unless otherwise declared by INDYCAR, a Race stopped by the declaration of a Red Condition will be considered incomplete unless more than 50% of the scheduled number of laps or unless more than 50% of the declared time limit has been completed by the Race leader. If INDYCAR schedules the continuation of the Race on a subsequent date or a later time, the Race will be restarted beginning with the unfinished portion of the Race.

7.2.10.2. If a Race is stopped by the declaration of a Red Condition and more than 50% of the scheduled number of laps or more than 50% of the declared time limit have been completed by the Race leader, INDYCAR may declare the Race complete and final standings will be determined by ranking all Cars in order by total laps completed and sequence of completion through the last official Race lap.

7.3.5.8. Final standings will be determined by the sequence in which the Cars completed the scheduled number of laps.

7.3.5.8.1. Except as provided in Rule 7.3.5.4, a Race will be completed by the Race winner at the moment the timing transponder of the Car crosses the start/finish line on the last lap. The Race will be completed by each other Car when the timing transponder of each Car crosses the start/finish line after the Race leader. Scoring will thereafter cease and the Race is completed. INDYCAR’s decision may not be reviewed and/or appealed.

7.3.5.8.2. Cars not completing the scheduled number of laps will be ranked in order by total laps completed and sequence of completion, whether the Car is still running or not. INDYCAR shall determine the “reason out” for each Car not listed as running.

7.3.6. Ties

7.3.6.1. In the event INDYCAR is unable to conclusively determine any difference in the physical sequence for two or more Cars at the end of a Race, INDYCAR shall determine the finishing positions based upon the Cars’ positions at the start/finish line on the prior lap.

7.3.6.2. In the event two or more Cars post the identical number of laps led in a Race, the Car finishing the Race in the higher/highest position will earn the award for most laps led.

9. PENALTIES

9.1. General

9.1.1. INDYCAR may penalize any Member for any violation of the Rules. If an Official observes or is made aware of an act or omission by a Member that constitutes a violation of the Rules, the Official shall promptly report the violation to INDYCAR. INDYCAR shall consider the report and shall conduct whatever additional inquiry it deems appropriate under the circumstances. After concluding the inquiry, INDYCAR shall determine whether disciplinary action is appropriate and if so, what disciplinary action should be taken. The Member shall be informed of the determination and if disciplinary action is imposed, INDYCAR shall issue a penalty notice to the Member specifying the violation, a brief statement of the circumstances of the violation and the penalty imposed. If the act or omission of a Member is determined by INDYCAR to constitute a threat to the integrity or safety of INDYCAR, the NTT IndyCar Series or to the orderly conduct of an Event or to constitute a violation during an Event, INDYCAR may take immediate action against the Member.

9.1.2. The Race Stewards shall monitor violations of the Sporting Regulations of the Rules during Qualifications and/or Races. The Race Stewards and/or the Race Director may request a Steward’s Review at any time. Each Race Steward votes for or against the issuance of a penalty, a majority vote determines if a penalty is issued, and the individual votes are not released or made public. Once this determination is made, the Race Stewards shall determine the severity of the penalty from the Penalty Guidelines developed by INDYCAR based on majority vote. A Race Steward will notify the Race Director who shall advise the Competitors and broadcast/media of the determination and/or penalty. Either: (i) “Car #___ was under Steward’s Review and no further action is required” or (ii) “Quoting Rule #___ and Car #___, the penalty is issued.”

9.2. Scope of Penalties

9.2.1. Penalties for violations of the Rules are divided into two categories: Race Procedure penalties and non-Race Procedure penalties. Penalties are determined by the gravity of the violation and its impact on the fairness of competition, the orderly conduct of the Event and the interests and integrity of automobile racing, INDYCAR and the NTT IndyCar Series. INDYCAR shall have the authority to impose any or all or any combination of the following penalties against any Member for any violations of the Rules at any time.

9.2.2. Race Procedure Penalties – Violation of Race Procedures generally result in penalties imposed during on-Track activity. If circumstances do not permit a penalty to be served during on-Track activity, INDYCAR shall declare the results provisional and subject to examination which shall take no longer than one (1) hour after the displaying of the checkered flag. This examination is independent of the Competitor’s requirement to pass post-Race technical inspection. If the imposition of a penalty is near or at the end of the on-Track activity and the Driver/Car does not fulfill it, INDYCAR may reposition the Driver/Car in the posting of results. Additional penalties may be applied to subsequent on-Track activity to reflect the fulfillment of the penalty. Except as provided in Rule 10.2.1, the penalty, including without limitation any repositioning in a posting, is non-reviewable and/or appealable.

9.2.2.1. Black Flag – INDYCAR may impose black flag penalties.

9.2.2.2. Laps – INDYCAR may impose lap penalties. Lap penalties shall be imposed in complete laps only. The imposition of a lap penalty shall result in the removal of official credit for the specified number of penalty laps from the total laps credited to the Competitor and the scoring records and all points and awards shall reflect the removal of penalty laps.

9.2.2.2.1. If the lap penalty is imposed during the on-Track activity, the removal of official credit shall begin with the Competitor’s lap in which the violation occurred and shall include subsequent consecutive laps, as determined by INDYCAR.

9.2.2.2.2. If the lap penalty is imposed after the on-Track activity is completed, INDYCAR shall determine, based on the severity of the violation, whether the removal of official credit shall begin with the Competitor’s last lap and include previous consecutive laps as required, or begin with the Competitor’s lap in which the violation occurred.

9.2.2.3. INDYCAR shall make a reasonable effort to notify the penalized Competitor of a lap penalty at the time it is determined. However, failure to notify the Competitor during the on-Track activity will in no way mitigate or change the penalty.

9.2.2.3. Time – INDYCAR may impose time penalties as described below. The imposition of a time penalty may result in the removal or addition of the specified amount of time to the Competitor and the timing and scoring records and awards shall reflect the removal or addition of time.

9.2.2.3.1. If the time penalty is imposed during a subsequent on-Track activity, the time shall be removed from the Entrant’s Open Test or Team Test, practice session and/or Qualifications period. The time penalty must be fulfilled when directed by INDYCAR. The time penalty begins when the Member, the Member’s Car and Entrant personnel are in Pit Lane.

9.2.2.3.2. If the time penalty is imposed during the current on-Track activity, time shall be removed or added to the Entrant’s overall time on the official posting.

9.2.2.4. On-Track Repositioning – INDYCAR may impose a repositioning penalty during on-Track activities. The repositioning penalty will result in an order change of the Car’s on-Track position.

9.2.2.5. Starting Lineup Repositioning – INDYCAR may impose a Starting Lineup penalty. A Starting Lineup penalty is repositioning of an Entrant in the Starting Lineup. If a Starting Lineup repositioning penalty is announced, the recipient of the repositioning penalty may not pit until a Green Condition occurs, unless approved by INDYCAR.

9.2.2.6. Disqualification – INDYCAR may disqualify the Member. Disqualification shall entail the loss of any right to compete in the remainder of the current Event from the time at which the disqualifying condition first occurred. It may entail the forfeiture of Entry fees paid or payable and INDYCAR shall determine, based on the severity of the violation, whether or not the disqualification includes the forfeiture of points and awards earned up to the moment at which time the infraction for the disqualification first occurs.

9.2.3. Non-Race Procedure Penalties – Violations of non-Race Procedures generally result in penalties imposed during off-Track activity. Penalties are reviewable and/or appealable except as provided in Rule 10.2.1.
9.2.3.1. Additional Appearances and/or Meetings – INDYCAR may require a Member to attend and actively participate in appearances and/or meetings in addition to those required of the Member, other Members, pursuant to the Rules and any other agreements. INDYCAR may specify the due date for completion. Failure to attend and/or participate by the due date may result in reinstatement of the monetary fine if a monetary fine was imposed, or additional penalties as determined by INDYCAR.

9.2.3.2. Monetary Fines – INDYCAR may issue monetary fines and specify the due date for payment. Unpaid fines may be deducted from any awards payable by INDYCAR to the Entrant or Manufacturer associated with such Member. INDYCAR may suspend or refuse to approve the renewal of the License and/or membership of any Member failing to timely pay any fine during the period the fine remains unpaid.

9.2.3.3. Probation – INDYCAR may place a Member on probation. Probation is a state of limitation upon a Member’s privileges. During probation, a Member is under heightened scrutiny and the Member may be required to abide by specified standards of conduct that are more stringent than those which are otherwise applicable to Members under the Rules. If a Member violates probation, the Member is subject to a more severe penalty as determined by INDYCAR. INDYCAR shall determine the duration and conditions of probation.

9.2.3.4. Suspension – INDYCAR may suspend a Member. A suspension may be total suspension from INDYCAR or it may be limited to a suspension of membership or License privileges at a Race Location facility or facilities, or for a particular Event or Events, or for a specified or indefinite period of time. Unless expressly limited, a suspension shall entail the loss of any right to take part in any capacity whatsoever in any Event or Events included in the suspension. Unless otherwise stated, individuals under suspension will not be issued credentials of any kind for an Event and the privileges and uses of the Track, pit area, garage area and other restricted areas will be denied. Every suspended individual shall return all credentials and/or Licenses to INDYCAR who will not return them until the term of the suspension has expired. Any delay in surrendering the credentials and/or Licenses may be added to the term of the suspension. If the suspended individual does not return the credentials and/or Licenses, the credentials and/or Licenses shall be inoperative and invalid until the lifting of the suspension and the Member may be subject to additional penalty for failure to return the credentials and/or Licenses. Suspension may also render void any previous Entry made for any Event occurring during the term of such suspension and may entail the forfeiture of any applicable Entry fees paid or payable for any such Entries. INDYCAR shall have the right to reduce, increase, or otherwise modify the unexpired term of a suspension issued under the Rules.

9.2.3.5. Loss of Points and/or Awards – INDYCAR may rule that a Member who violates the Rules will forfeit all or a portion of the points and/or awards earned in that year, including points and awards earned in the Event in which the violation occurred.

14.3. Technical Inspection

14.3.1. INDYCAR decides the factors in inspection, and it may vary by Entrant, portion of Event and/or Event.

14.3.1.1. INDYCAR decides the order of inspection.

14.3.1.2. Entrants are required to have the tools necessary to fulfill work as requested by INDYCAR.

14.3.1.3. A penalty may still be issued, even if the Car or part completed inspection at an earlier Event and/or earlier portion of the same Event.

14.3.2. The responsibility remains with the Entrants to make sure Cars conform to all Rules throughout the course of an Event.

14.3.3. Reference planes and ‘0’ coordinates

14.3.3.1. All measurements shall be taken from the reference plane or ‘0’ coordinates. These shall be established by Dallara and cannot be modified.

14.3.3.2. References will be measured using the following coordinates:

a) “X” coordinate is defined as the relative location fore and aft of the front face of the forward chassis bulkhead - “0” being the forward face of the chassis. These measurements will be referred to as +/- the “X” line, with – (negative) being forward.

b) “Y” coordinate is defined as the location laterally from the chassis centerline, Driver’s right-hand side being positive.

c) “Z” coordinate is defined as the location vertically with the bottom of the skid being 0’ Z’, + (positive) being up.

The bottom of the skid establishes the “chassis reference plane.” For purposes of technical inspection, the “chassis reference plane” is 1.000 inches above the plane established using “Tech Tool Monocoque Nosepin Machined Plate, IR1201977” and the gearbox reference puck as defined in “Xtrac Technical Bulletin 020” and “Dallara Technical Bulletin IR15 13.01 (2015).

14.3.4. The engine and gearbox installed angle is minus 0.10 degrees to 0.10 degrees relative to the ‘0’ line.

14.3.5. INDYCAR may inspect, impound and/or confiscate any Car, part, equipment, item, or data associated with a Car or its operation during an Event at any time. INDYCAR is not responsible for damage or loss as a result of inspection procedures, impounding, or confiscation.

14.3.5.1. Entrants must submit to INDYCAR via IRIS (under the Technical Data section) a complete Cosworth dataset from the outing that contains the fastest lap after practice session one (1), Qualifications, and the final practice session, within one (1) hour after completion of the session. INDYCAR may request additional datasets.

14.3.6. The maximum amount of fuel allowed in the Car when coming through Entrant-initiated technical inspection is six (6) gallons. The Car must be empty of fuel when being weighed.
14.4. Car Weight and Driver Equivalency Weight

14.4.1. Car Weight

14.4.1.2. The only approved ballast location is the keel.

14.4.2. Driver Equivalency Weight

14.4.2.1. INDYCAR specifies the Driver Equivalency Weight. INDYCAR shall notify each Entrant of its Driver Equivalency Weight.

14.4.2.2. Driver Equivalency Weight must bring the combined weight of the Driver and Driver ballast to 185 pounds.

14.4.2.3. INDYCAR may weigh any Driver and adjust the Driver ballast accordingly.

14.4.2.4. Drivers over 185 pounds are allowed a Car weight reduction equal to the amount the Driver exceeds 185 pounds.

14.4.2.5. The Driver ballast weight tolerance is 0.00 to + 1.00 pounds. The Driver Equivalency Weight must be installed and secured in the designed location forward of the seatback. This location may only be used for Driver ballast.

14.4.2.6. In addition to the above specified location, a 10-pound (tolerance 0.00 to + 0.50 pounds) Driver ballast weight may be added to the front face of the pedal bulkhead as per approved drawing supplied by Dallara. This location may only be used for Driver ballast and only for Drivers requiring 10 pounds or more ballast.

14.4.2.7. The Driver Equivalency Weight must be a hard-dense metal.

14.4.2.8. Violation of this Rule may result in a minimum $100,000 fine and/or other penalties.

14.4.2.9. All Drivers are reweighed at technical inspection within fifteen (15) minutes after completion of practice session one (1) of a Race Event. Drivers must wear the following personal safety equipment: uniform, underwear (top and bottom), socks, and shoes.

14.4.2.9.1. A Driver late for weigh in loses ten (10) minutes from the end of the next practice session.

14.4.2.9.2. A Driver failing to appear for weigh in may not participate in practice and/or Qualifications until he/she has completed the weigh in.

14.4.2.10. Driver ballast changes are subject to the following:

14.4.2.10.1. A Driver weight change of plus or minus 3 pounds: Car and/or Driver weight will remain unchanged, and Entrants may not change their Driver ballast.

14.4.2.10.2. A Driver weight change of more than plus or minus 3 pounds: Entrants must change their Driver ballast before the current Race’s Qualifications.

14.4.3. A Driver weight change of more than plus or minus 7 pounds: Entrants may be subject to penalty.

15.5.1.5. Allotment tires are only available during INDYCAR-sanctioned Races.
15.5.2. Unused replacement Tires returned to the Tire mounting area will not be credited back to the Entrant’s annual allotment.
16. ENGINE SPORTING REGULATIONS

16.1. Installation Requirements

16.1.1. Only the Engine supplied by the Engine Manufacturer or its designee and approved by INDYCAR may be used during an on-Track Event. No modifications are allowed.

16.1.2. INDYCAR will seal all Engines prior to installation in the Car. No Car may participate in any on-Track activities during an on-Track Event without the INDYCAR Engine seals in place. Engine seals may not be broken, tampered with, or removed without the approval of INDYCAR.

16.1.3. An INDYCAR-approved air filter must be used as supplied in the specific location.

16.1.4. Only lubricants approved by INDYCAR and the Engine Manufacturer may be used.

16.1.5. No additives may be mixed with an INDYCAR-regulated fluid without prior INDYCAR approval.

16.1.6. Only the following clutch assemblies are approved:

- AP - CP8153-DE03-SN
- ZF - 883082002617

16.1.7. The bellhousing must be used as supplied by Dallara.

16.1.8. Entrants required to use the INDYCAR supplied torque shaft must maintain a shaft temperature of less than 125° C. Failure to comply with this Rule will require replacement of INDYCAR equipment at Entrant’s expense.

16.1.9. Any heat shields or cooling ducts installed on the Car must not block visual access to the serial numbers on INDYCAR-supplied electronics, the Manufacturer parts, the turbocharger, or the INDYCAR Engine seals.

16.1.10. Only the Homologated exhaust system may be used. Exhausts and exit locations must remain as specified by Dallara or as Homologated. Exhaust/waste-gate pipes must protrude a minimum of 0.250 inches and a maximum of 1.000 inch through the bodywork. The exhaust opening in the sidepod must remain as Homologated with a tolerance of plus or minus 0.500 inches.

16.1.11. All Homologated parts provided by the Engine Manufacturer must be installed and used as supplied without modification.

16.2. Number of Engines and Engine Management

16.2.1. An Entrant may only possess one (1) Engine unless otherwise approved by INDYCAR.

16.2.1.1. An Entrant may not have more than two (2) Engines assigned to them at any one time.

16.2.1.2. If an Entrant is assigned two (2) Engines, the Engine that is not installed (waiting) must always be ready to be installed. If circumstances require the waiting Engine to be installed (i.e. crash or Engine failure) and it is not available, it will be considered to be an Unapproved Change-Out of the waiting Engine and a new Engine will be assigned to the Entrant.

16.2.2. Engine Pool – The Engine Manufacturer is responsible for Engine use planning; however, INDYCAR is responsible for all Engine assignments and will randomly assign Engines to each Entrant from an Engine Pool nominated by the Engine Manufacturer. Each Engine assignment increases the Engine Count for an Entrant by one (1).

16.2.2.1. A new Engine Pool and an Engine use plan must be submitted to INDYCAR prior to each on-Track Event by noon (local time of the Event) the Day prior to on-Track activities.

16.2.2.2. The Engine Pool for the Indianapolis 500® Race must be specified by the completion of Qualifications.

16.2.2.3. If a new Engine Pool is not specified, the Engine Pool from the previous on-Track Event will carry over.

16.2.2.4. All Engines will be assigned from a single pool of Engines with the exception of the Indianapolis 500® Race Event, which allows for one (1) additional Engine Pool to be specified to Entrants participating in the Short Indianapolis 500® Engine Program and Full Indianapolis 500® Engine Program.

16.2.2.5. All Engines presented in any Engine Pool must contain parts Homologated by INDYCAR and applied according to the Rules stipulated in the Engine Regulations.

16.2.2.6. If an Engine is used on-Track that is not from an on-Track Event’s Engine Pool, it will be considered an Unapproved Engine Change Out.

16.2.2.7. An Engine Manufacturer must supply an Engine Pool of sufficient size to assign engines. The following guidelines must be followed:

a) Engine Pool must exceed the number of cars needing an engine by at least 1 if that number is less than half the number of cars supported.

b) Engine Pool must at least match the number of cars needing an engine if that number is more than half the number of cars supported.

c) If the Engines available are not sufficient to supply cars, Engines will be assigned with a priority of crashed engine replacements followed by the next highest mileage Entrant engine. Entrants that cannot receive an assigned Engine due to lack of Engines in the pool must wait until the Engine Pool is nominated for the next event.

16.2.3. Full Season Engine Program – A Full Season Entrant is allowed four (4) fresh-built Engines from the Season Start of a given Racing Season until the Season Start of the following Racing Season. If circumstances require a fifth (5th) or more Engine is used, the following will apply:
16.2.3.1. A fifth (5th) or more Engine may be fresh or partially-used.

16.2.3.2. A fifth (5th) Engine is eligible to earn Engine Manufacturer points if a Full Season Entrant has completed the Full Season Entrant Engine Mileage with its first four (4) Engines. Otherwise, a fifth (5th) or more Engine does not earn Engine Manufacturer points.

16.2.3.3. Cars that are not eligible to earn Engine Manufacturer Championship Points are removed from the finishing order used for Race finish points in the Engine Manufacturer Championship.

16.2.4. Short Indianapolis 500® Engine Program – Short Indianapolis 500® Engine Programs will only be allocated one (1) Engine for the duration of the Indianapolis 500® Race Event.

16.2.5. Full Indianapolis 500® Engine Program – A Full Indianapolis 500® Engine Program has up to two (2) Engines for the duration of the Indianapolis 500® Race Event.

16.2.6. An Entrant participating in a Short or Full Indianapolis 500® Engine Program may start the Event with an Engine that is sealed prior to the Event with previous Engine miles since the Season Start. If that Engine reaches its Change Out Mileage prior to the Race, it may be changed according to Rule 16.5.1. An Engine changed for this reason would not be considered an Entrant’s Indianapolis 500® Race Engine unless specified as such by the Engine Manufacturer.

16.3. Engine Mileage

16.3.1. The Full Season Entrant Engine Mileage is 10,000 total miles for use in all Team Tests, Open Tests, and Race Events from the Season Start of a given Racing Season until the Season start of the following Racing Season.

16.3.1.1. A substitute Driver is responsible for purposes of Engine miles.

16.3.2. All Engine mileage must be reported to INDYCAR and is subtracted from the 10,000-mile allotment, regardless of Use. Mileage is calculated from the official lap count from each on-Track Event multiplied by the official Track length. Race parade and pace laps, Oval Qualifications warm-up laps, and initial out lap from each practice and Qualifications session are included. The following will also apply:

16.3.2.1. For all tests where official timing and scoring is not available, the Engine Manufacturer must provide INDYCAR with Engine mileage within forty-eight (48) hours of the completion of a Test.

16.3.2.2. Where official timing and scoring is not available, mileage may be calculated by the ECU.

16.3.2.3. The Engine Manufacturer must provide INDYCAR with ECU and boost sensor serial numbers within forty-eight (48) hours of the completion of the Event for the purpose of tracking mileage.

16.3.2.4. An Engine’s current total mileage is rounded to the nearest mile.

16.4. Engine Change-Out

16.4.1. Between the last Race of the Racing Season and the Season Start of the following Racing Season, an Entrant may change-out Engines as it deems appropriate without penalty and without the prior approval of INDYCAR.

16.4.2. From the Season Start until the completion of the Racing Season, no Engine may be changed-out without the prior written approval of INDYCAR and the Engine Manufacturer. Engine Change-Outs by an Entrant may be specified by INDYCAR as either:

- Approved Engine Change-Out, or
- Unapproved Engine Change-out.

16.4.3. Unless otherwise stated, any Engine that is assigned shall count as one (1) of the fresh-built Engines allotted to an Entrant.

16.5. Approved Engine Change-Outs

16.5.1. Engine Retired – An Engine that has reached an Engine Change-Out Mileage determined by the Engine Manufacturer may be changed out at any time. An Engine changed-out for this reason may not be reinstalled, is removed from the Engine Pool and will have its Engine seals removed.

16.5.2. Team Test Allowance – After the completion of a Race, an Entrant with an Engine installed that would exceed its Engine Change-Out Mileage during a Test may install a lower mileage Engine with INDYCAR approval for the purpose of participating in a Test scheduled between two (2) Races. In this case, the following will apply:

16.5.2.1. The higher mileage Engine from the previous Event must be installed to complete its planned life cycle prior to the start of the next Race Event, or be removed from service with the Engine seals cut. After the next Race Event, the higher mileage Engine will be considered to be Retired and must be Changed-Out according to Rule 16.5.1. The remaining assigned Engine must then be installed to complete its scheduled life cycle.

16.5.2.2. An Entrant must first use Engines from its current allocation.

16.5.2.3. If an Entrant is currently allocated only one (1) Engine, a second, fresh Engine may be allocated to the Entrant for the purpose of participating in the Test.

16.5.2.4. Any Engine installed for the purpose of completing Testing remains allocated to the Entrant and must be installed after the first, higher mileage Engine has completed its life.

16.5.3. Manufacturer Test Engine – An Entrant participating in an INDYCAR, Tire or Engine Manufacturer Test may use a Manufacturer Engine for that Test without penalty. Such Engine Change-Outs must comply with the Rules. Engine miles used for such Tests do not count against the Full Season Entrant Engine Mileage limit.

16.5.4. Indianapolis 500® Race Engine – For Entrants with multi-Engine programs, a fresh Engine may be fitted before the Indianapolis 500® Race without penalty, subject to availability and the following conditions:
16.5.4.1. Both Engines remain allocated to the Entrant, and both Engines must reach their Change-Out Mileage before any other Engines are allocated to the Entrant.

16.5.4.2. After the completion of the Indianapolis 500® Race Event, an Entrant may choose either of these allocated Engines to be installed; however, the installed Engine must remain in the Car until it reaches its Change-Out Mileage.

16.5.5. Once an Indianapolis 500® Engine is fitted to the Car, removal of the Engine prior to the Indianapolis 500® Race is an Unapproved Engine Change-Out.

16.5.6. Special/Non-Race Events

16.5.6.1. A Manufacturer Engine may also be used for specific Special/Non-Race Events with prior approval from INDYCAR.

16.5.6.2. Pit Stop Competition – For the pit stop competition held on Carburetion Day of the Indianapolis 500® Race Event, Engine Manufacturers may substitute any Engines for assigned Engines with INDYCAR approval.

16.5.7. Operating Outside Guidelines – Changing an Engine before the Change-Out Mileage because it has been operated outside of the Engine Manufacturer’s guidelines are subject to the following:

16.5.7.1. Entrant pays the repair costs of the Engine including parts, labor, shipping and travel costs for INDYCAR personnel; and

16.5.7.2. Once the Entrant pays the Engine Manufacturer the repair costs, the Entrant will be credited the unused mileage of the Engine and be supplied a fresh or used replacement Engine from the Engine Pool.

16.5.8. Crash Damage – An Engine that has suffered crash damage requiring a Non-Minor Repair may be changed without an Unapproved Engine Change-Out penalty only if the following conditions are met:

16.5.8.1. The Engine Manufacturer presents evidence of crash damage to INDYCAR;

16.5.8.2. Only parts failed as a result of the crash are replaced;

16.5.8.3. INDYCAR approves the change and assigns the Entrant a fresh Engine from the pool (only if an Engine is not already assigned to the Entrant); and

16.5.8.4. The crashed Engine remains allocated to the Entrant and must be returned when the repair is complete to finish its life before another Engine is allocated.

16.6. Unapproved Engine Change-Outs

16.6.1. Any Engine Change-Out that is not explicitly identified as an Approved Engine Change-Out is considered an Unapproved Engine Change-Out.

16.6.1.1. Any Engine that undergoes an Unapproved Engine Change-Out may not be reinstalled, is removed from the Engine Pool and will have its seals removed.

16.6.2. Entrant-Initiated Change-Out – For an Entrant-initiated Engine Change-Out, the Change-Out is considered a Rules violation and the Entrant will be listed in a position at the rear of the Starting Lineup for the next Race, regardless of whether the Change-Out occurs at a Race or Test Event.

16.6.2.1. If an Entrant makes two (2) Unapproved Engine Change-Outs during an on-Track Event, the penalty for the second (2nd) Unapproved Engine Change-Out is served at the following Race.

16.6.2.2. Entrant-initiated Engine Change-Outs lose ten (10) Driver and Entrant points.

16.6.2.3. All mileage remaining on an Engine prior to the Unapproved Engine Change-Out is lost.

16.6.2.4. No Engine Change-Out Starting Lineup penalties are served during the Indianapolis 500®, however, points penalties will be applied. Penalties carried over into or earned at the Indianapolis 500® are served at subsequent Races.

16.6.2.5. Entrants not participating in consecutive on-Track Events do not carry-over any Engine Change-Out penalties.

16.6.3. Entrant Abuse – An Engine may be damaged by the actions of the Entrant including but not limited to the use of non-approved fuels or oils, tampering with the boost control or rev limit functions, continuing to operate the Engine after being informed that a problem has occurred including overheating (“Entrant Abuse”). Changing an Engine before the Change-Out Mileage for Entrant Abuse is subject to the following:

16.6.3.1. Entrant pays repairs costs for the Engine including parts, labor, shipping, and travel costs for INDYCAR personnel.

16.6.3.2. All mileage remaining on the Engine prior to the Entrant Abuse incident is lost.

16.6.4. Removing the Engine to test a Down on Power (“DOP”) claim is an Unapproved Engine Change-Out.
16.7. Down on Power Engines

16.7.1. Entrant Claim – An Entrant claiming an Engine is DOP must provide supporting data to the Engine Manufacturer before the claim is reviewed. The Engine Manufacturer may decide if the DOP claim is valid.

16.7.2. Limitation – A DOP claim may not be made after the completion of the next-to-last (penultimate) Race Event of the Racing Season.

16.7.3. On-Track Torque Measurement – An Entrant may request to install an INDYCAR-specified torque measurement shaft to determine whether it is down on power relative to other Engines provided by the Engine Manufacturer. If an Entrant’s request is approved by INDYCAR the following applies:

16.7.3.1. The Entrant must put up a bond of $3,000 USD.

16.7.3.2. If an Entrant already has a shaft installed and they are part of a multi-car Team, another Team Member’s car must install the torque shaft.

16.7.3.3. INDYCAR will compare the Entrant’s torque values against the output of other instrumented Entrants running the same Engine Manufacturer’s Engine and will assert whether the DOP claim is valid. No actual torque values will be shared with the Entrant or the Engine Manufacturer, only relative differences.

16.7.3.4. If the measurement does not show that the Engine is DOP beyond 2% of the average Engine power from all the Engine Manufacturers currently installed engines with torque measurement, the Entrant forfeits the bond.

16.7.3.5. If the measurement does show that the Engine is DOP beyond 2% of the average Engine power from all the Engine Manufacturers currently installed engines, the Entrant will be paid back the bond and the Engine Manufacturer will be charged $3,000 USD for the use of torque measurement shaft.

16.7.3.6. Regardless of the outcome of this measurement, the rest of Rule 16.7 still applies.

16.7.4. Manufacturer Agrees with Claim – If the Engine Manufacturer accepts the DOP claim, the Engine Manufacturer informs INDYCAR of the issue. INDYCAR inspects the supporting data and in its discretion, decides if the DOP claim is valid. If it is decided by all parties that the Engine is DOP, INDYCAR shall:

16.7.4.1. Approve the Engine Change-Out; and

16.7.4.2. Assign the Entrant a fresh or used Engine from the Engine Pool for the outstanding miles of the DOP Engine. For Engine mileage purposes, the reworked or rebuilt Engine will count as a substitute for the DOP Engine.

16.7.4.3. The DOP Engine will be considered to have met its full Engine life cycle, be removed from the Engine Pool and may not be reinstalled.

16.7.5. Manufacturer Disagrees with Claim – If an Engine Manufacturer or INDYCAR does not accept that a DOP claim is valid, the Entrant making the claim may, in its discretion, pay the DOP bond to INDYCAR to have the Engine removed from the Car and retested by the Engine Manufacturer.

16.7.5.1. DOP Bond:

16.7.5.1.1. For all Entrants, each DOP claim bond is $50,000 USD.

16.7.5.2. INDYCAR will keep the DOP bond until an Engine power test is completed at the Engine Manufacturer’s venue. The retest of the Engine must be completed within fifteen (15) Business Days of the DOP claim. INDYCAR reserves the right to have an Official present at the test.

16.7.6. DOP Engine Passes Retest – If the DOP Engine retests within two (2) percent of its shipping test performance between 9,000 and 12,000 rpm:

16.7.6.1. The Entrant loses the DOP bond and INDYCAR pays the DOP bond to the Engine Manufacturer;

16.7.6.2. The Entrant pays INDYCAR’s costs for having an Official present at the test;

16.7.6.3. The DOP Engine is returned to the Entrant and installed prior to the next on-Track activity following the DOP test;

16.7.6.4. The DOP Engine is not an Unapproved Engine Change-Out;

16.7.6.5. The rebuilt or reworked Engine that was in the Car during the DOP claim test is assigned to the specific Entrant and must be used once the DOP Engine has completed its life cycle.

16.7.6.6. The Entrant loses ten (10) Driver and Entrant points; and

16.7.6.7. The Entrant will start the next Race from the rear of the Starting Lineup. No Engine Change-Out penalties will be served during the Indianapolis 500® but points penalties will be applied. Penalties carried over into or earned at the Indianapolis 500® will be served at subsequent Races.

16.7.7. DOP Engine Fails Retest – If the Engine retests more than two (2) percent under its shipping test performance between 9,000 and 12,000 rpm:

16.7.7.1. INDYCAR returns the DOP bond to the Entrant;

16.7.7.2. The DOP bond does not increase the next time the Entrant makes a claim;

16.7.7.3. The Engine Manufacturer pays INDYCAR’s costs for having an Official present at the test;

16.7.7.4. The Engine Manufacturer supplies the Entrant with an Engine from the Engine Pool for the outstanding miles of the DOP Engine. For Engine mileage purposes, the replacement Engine counts as a substitute for the Engine that was removed.
16.8. Engine Repair

16.8.1. All Engine repairs during an on-Track Event must have prior approval from INDYCAR.

16.8.2. Minor Repair – A Minor Repair is a repair that can be done without the removal of either the cam cover and/or removal of any INDYCAR-applied seals.

16.8.3. An Engine that requires a Minor Repair, may, with INDYCAR’s approval, be removed from the Car for repair without penalty. Use of the Car on-Track with another Engine is an Engine Change-Out.

16.8.4. If any of the INDYCAR-applied Engine seals needs to be broken or removed, the repair cannot be carried out unless an Official is present and INDYCAR gives prior approval. If the repair is carried out at the Engine manufacturer’s shop, the Engine Manufacturer pays reasonable pre-approved travel expenses for the Official to be present.

16.8.5. Non-Minor Repair – A Non-Minor Repair is a repair that requires the removal of the cam cover and/or removal of any INDYCAR-applied seals. Non-Minor repairs are only allowed to fix Engines that have suffered crash damage and the following must apply:

   16.8.5.1. The Engine Manufacturer provides evidence of damage to INDYCAR;
   16.8.5.2. Only one (1) Non-Minor Repair may be carried out on any given Engine during its 2500 life.

16.8.6. Part Replacement – Parts may only be replaced with parts of the same design as those removed or with INDYCAR-approved upgrades.

   16.8.6.1. If a Non-Minor Repair requires replacement of the Engine cylinder block casting or cylinder head casting (not including respective covers), it is not repairable and is an Unapproved Engine Change-Out.

16.8.7. Repair Dyno Confirmation – The Engine Manufacturer may run the Engine at its testing facility for the purpose of assuring the Minor Repair is effective. The Engine must be returned to the Entrant before the next scheduled on-Track use of the Car unless it is superseded by another Approved Engine Change-Out.

16.8.8. Repair Completion – An Engine Manufacturer has three (3) weeks or before the final Race of the Racing Season (whichever comes first) to complete a Non-Minor Repair on an Engine and return it to an Entrant to be installed. If an Engine cannot be returned, the Engine Change-Out will be an Unapproved Engine Change. Any Engine that was assigned to an Entrant during the Non-Minor Repair remains assigned to the Entrant and must complete its mileage before additional Engines are assigned.

16.9. Partial Season Entrants

16.9.1. Engine Manufacturers will support Partial Season Entrants approved by INDYCAR. Each Partial Season Entrant may use only the Engine supplied by the Engine Manufacturer or its designee and assigned by INDYCAR to the specific Entrant.

16.9.2. A Partial Season Entrant is not entitled to a fresh or zero (0) mileage Engine.

16.10. Engine Inspection

16.10.1. INDYCAR may request an Engine inspection be carried out on an Entrant’s installed Engine after on-Track activities. If the Engine must be removed from the Car, a new Engine is supplied from the Engine Pool. The inspected Engine returns to the Car within twenty-eight (28) calendar days to complete its remaining mileage.

16.10.2. INDYCAR does not pay rebuild costs incurred during any inspection of an Engine or its related parts and subsystems.
17. EQUIPMENT & GARAGES

17.1. Fuel Storage Tanks

17.1.1. Refueling supply must be gravity flow only. The use of pressurization or vacuum during refueling is not permitted. All tanks are limited to a single outlet with a maximum inside diameter of 3.000 inches. The outlet can have a maximum 1.500-inch radius from the tank’s external face to the outlet. The maximum length of the outlet including any attachments is limited to 11.000 inches from the front face of the tank.

17.1.2. All tanks must be vented to atmosphere at all times using a Protectoseal 3.000-inch flame arrester/vent or equivalent.

17.1.9. Refueling tanks and probe must be grounded by an INDYCAR-approved method.

17.1.10. Tank Capacities and Dimensions: Refueling tanks must be built to INDYCAR specifications (See illustrations below). Refueling tanks must be a single container made of T304 stainless steel or the equivalent and have a capacity of 152.00 U.S. Gallons. All dimensions are overall measurements with the top surface level. The maximum height of the refueling tank shall be 84.000 inches to the top surface, which must be level. The vent pipe shall be a minimum of 102.000 inches in height. All refueling tank height measurements will be made from the Pit Lane surface. No modifications may be made to the refueling tank specifications. Drawings for fuel tank are available from the INDYCAR office. All dimensions are in inches.

17.1.11. Vinyl wrap, acrylic or water-based paint are the only types of finishes permitted on the outside of refueling tank.

17.1.11.1. Coatings or coverings designed to provide an insulating R-value are not permitted.

17.1.11.2. Coatings or covering are not permitted inside of refueling tank.

17.1.12. Cooling of the refueling tank or fuel in the refueling tank is not permitted. Any means to alter the difference of the internal temperature of the tank or fuel to the ambient external temperature is not permitted.

17.1.13. Devices which alter the gravitational flow of fuel are not permitted, except as in Rule 14.21.3.3.

17.1.14. All support legs and height-adjusting devices used with the refueling tank must be approved by INDYCAR prior to use. Tank support legs must include feet with adequate area so that the tank, with fuel, will not sink into the pit surface. Metal or wood may be used under the support legs to distribute the load, provided it is not stacked in a hazardous manner. All tanks must include a mechanism approved by INDYCAR by which the tank may be moved away from the pit wall quickly and easily. Any wheels or castors attached to the tank support stand must be raised from contact with the pit surface.

17.1.15. The same specification of tank will be used at all Events.
17.2. Pit Lane Fire Equipment

17.2.1. The Entrant must have a fully charged ten (10) pound water fire extinguisher in the Car’s pit area. A gauge must be attached to each fire extinguisher. The mixture must contain ten percent (10%) Coldfire.

17.2.2. Each Entrant must have a minimum of two (2) open containers of water in the Entrant's pit area each with a capacity of five (5) gallons.

17.2.3. Each Entrant must have a two (2) pound dry chemical extinguisher in the Entrant’s pit area.

17.3. Equipment

17.3.1. All equipment must remain inside the Entrants designated Pit Box on the cold side of the pit wall and the fire lane must remain clear at all times.

17.3.2. All nitrogen bottles must be kept securely fastened in all locations, including common storage areas, and have a cage device or other container approved by INDYCAR to protect all valves and regulators. All nitrogen bottles must be returned to the designated location and secured at the conclusion of each on-Track Event.
17.3.3. The maximum height of the scoring stand is 84.000 inches measured from the ground to the top of the stand excluding awning. The maximum surface area of an awning is 85 square feet in plan view and be no more than 120.000 inches in height measured from the ground. INDYCAR may determine if an Entrant may use an awning at a particular facility. Scoring stands using wheels or castors must be chocked or secured from moving and awnings, flags, umbrellas or shields may be used, provided they do not block spectator viewing.

17.3.4. Paint or other permanent markings may not be used in the garage, on the Pit Lane surface or on the pit wall.

17.3.5. Camera booms cannot extend more than 80.000 inches into Pit Lane and must be approved by INDYCAR.

17.3.6. Where permitted an Entrant may display one flag in its Pit Box, provided the flag is located behind the front face of the pit wall, is a maximum size of 5 ½ feet wide and 3 ½ feet high and a maximum height of 14 feet off of the pit floor.

17.4. Garage

17.4.1. INDYCAR reserves the right to assign transporter parking, garages and Pit Boxes.

17.4.2. If garages are available, Entries may receive one (1) garage per Entry.

17.4.2.1. Each Entry will receive a minimum space of 12 feet in width for truck parking.

17.4.3. If available, Manufacturers may receive a designated amount of space in the garage area.

17.4.4. If garages are not available, each Entrant shall receive a maximum 30 feet wide parking location in the garage area to use as a garage for the transporter and tent/awning, unless otherwise noted.

17.4.5. Entrant agrees to reimburse Event Promoter for the cost of repairing any damage to the garage area that occurs during occupancy by the Entrant.

17.4.6. Tents will not be permitted to extend beyond the rear of the trailer or front bumper of the tractor.

17.4.7. Entrants must submit a diagram of their tent and transporter footprint layout by November 15th of the year prior to the first event and seven (7) days prior for any subsequent changes for INDYCAR approval.
